

Did'ja Know?

Doctors and nurses today help heal people. We can trust them to help us as best as they know how!

Color That Stuff

Sundays After Pentecost

August 21, 2022
11th Sunday
After Pentecost
Luke 13:10-17

The sabbath was a special day. Jesus' people were not supposed to do any work on that day. They rested because God rested.

But one sabbath day, Jesus met a woman who's back was so twisted and bent she couldn't stand up straight. She had been like that for eighteen years. Jesus loved her, and healed her right then and there.

Some people were angry. "You're not supposed to heal on the sabbath," someone complained.

Jesus shook his head. "Even on the sabbath you feed your animals," he said. "That's work. And how much more important is this woman than your donkey?"

The people who had complained were ashamed. Everyone else was full of joy that Jesus had healed the woman.

God's love can't be stopped by people's rules.

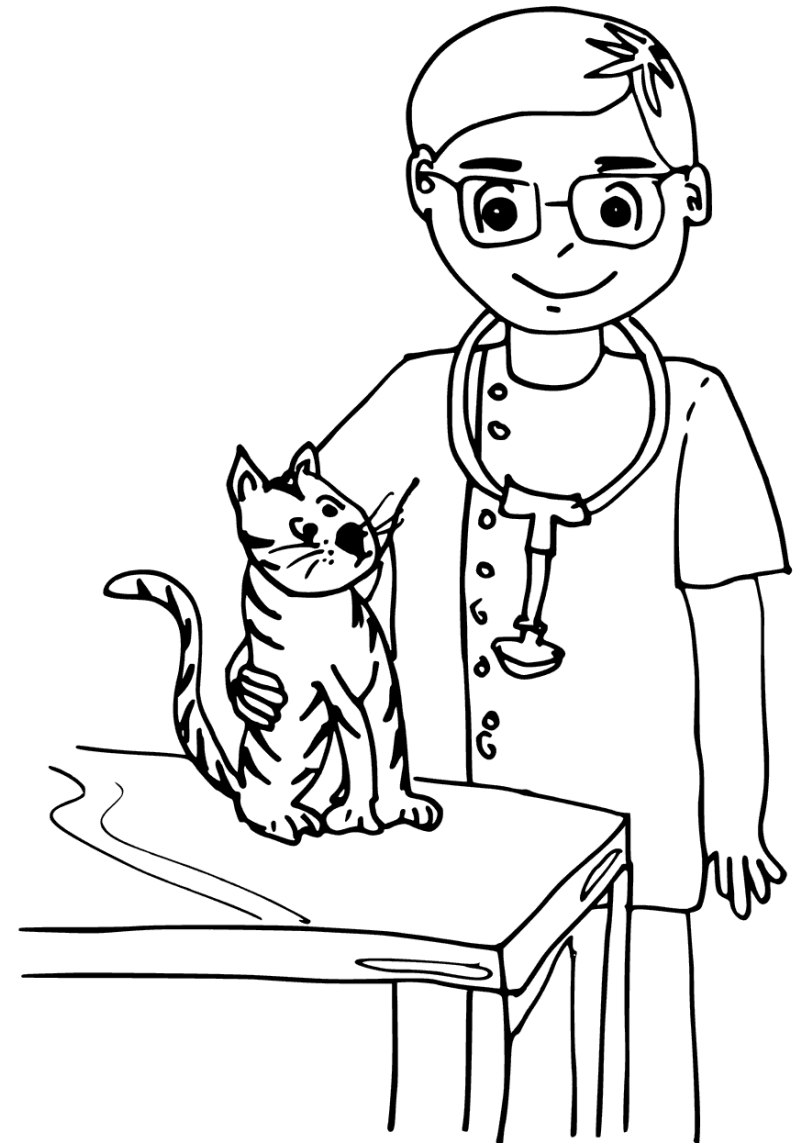

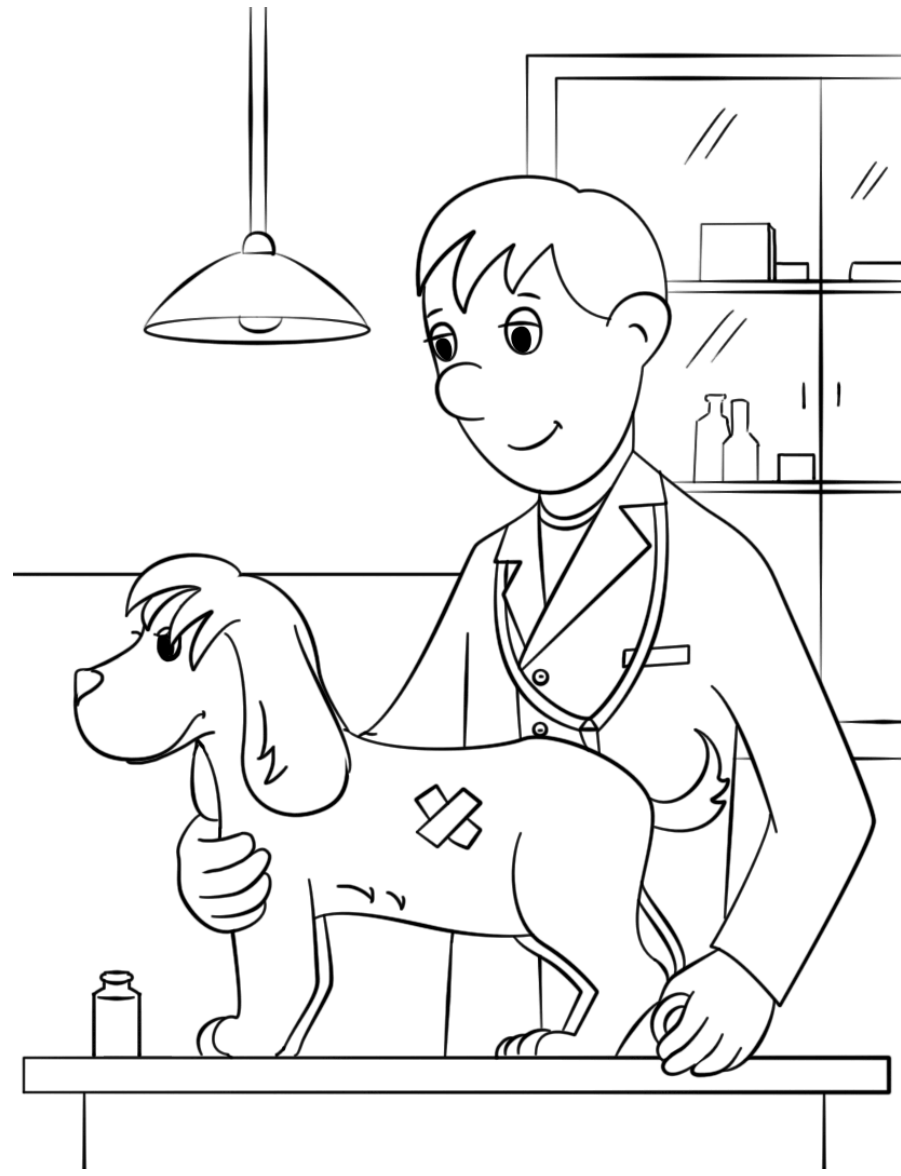

Healing

When a person gets better from something that bothers them in their body or in their mind.

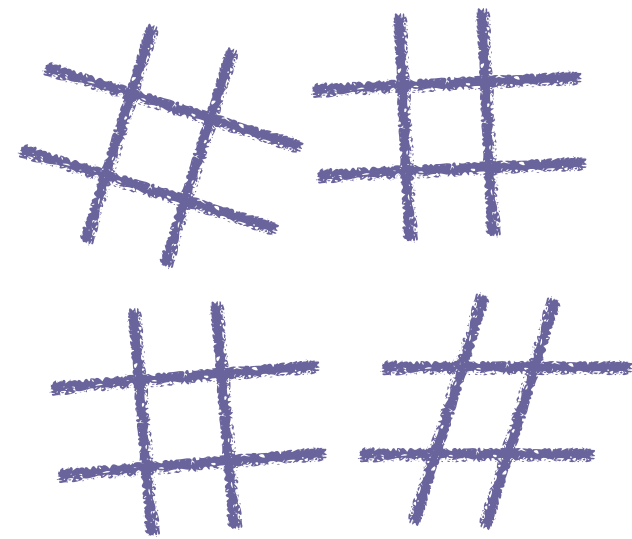

PICTURE IT

Our animal friends need help sometimes, too! A veterinarian is a type of doctor who helps heal animals. Color the pictures.

TICTACTOE

Try It At Home

Share with a friend or your parent what you would like to do when you get older. How is God calling you to do that thing?
